

Student Online Teaching Advice Notice

The materials and content presented within this session are intended solely for use in a context of teaching and learning at Trinity.

Any session recorded for subsequent review is made available solely for the purpose of enhancing student learning.

Students should not edit or modify the recording in any way, nor disseminate it for use outside of a context of teaching and learning at Trinity.

Please be mindful of your physical environment and conscious of what may be captured by the device camera and microphone during videoconferencing calls.

Recorded materials will be handled in compliance with Trinity's statutory duties under the Universities Act, 1997 and in accordance with the University's [policies and procedures](#).

Further information on data protection and best practice when using videoconferencing software is available at https://www.tcd.ie/info_compliance/data-protection/.

Information Modeling

Using

The Unified Modelling Language (UML)

... the **art of communication** of the design of information..

How the customer explained it

How the Project Leader understood it

How the Analyst designed it

How the Programmer wrote it

How the Business Consultant described it

How the project was documented

What operations installed

How the customer was billed

How it was supported

What the customer really needed

Perspectives and Ambiguity

Perspectives

When designing Information Systems there can be Varying perspectives Concerning.....

Functionality

Data requirements

Data properties – Public Vs Private attributes

Constraints

Cardinalities- e.g. Max, min number of modules a teacher should teach

UML diagrams provide a mechanism to display, discuss, negotiate and record these perspectives

Changing Perspectives - The Necker Cube

Changing Contexts.....

Consider Contexts like

Technology advancement

Disaster Zones

Temporary or permanent context change

Legislation

Regulation

Affordance- Understanding what works

Constraints.....

Cost
Scope
Time

Scope Creep.....
